At Launceston College we encourage all staff and students to dream big, be kind and take responsibility each day. We believe it is important to teach responsibility and purpose with a consistent approach, warmly supporting all staff and students 100% of the time to achieve the highest standards. High expectations and warm interactions ensure students can be successful in their learning and in their future.

Each young person will contribute to the future of the local Launceston community and the world beyond, and we strive to challenge and encourage each individual to be the best they can be, as often as they can be.

Let the adventure begin!
